

# Charles Babbage

Charles Babbage was an English polymath. A mathematician, philosopher, inventor, and mechanical engineer, Babbage originated the concept of a digital programmable computer. He is considered by some to be "the father of the computer".

Babbage is credited with inventing the first mechanical computer that eventually led to more complex designs. His Analytical Engine, although never completed, is considered a precursor to modern computers.

Charles Babbage was born on 26 December 1791 in London, England. He died on 18 October 1871 in London, England.
